Play with sounds!

Sing along

There's nothing like Australia

There's nothing like the sunrise, that first wave of the day

The trip along the coastline, it's right across the bay

There's nothing like this ancient place, sunset on a camel

This organism, this billabong, or this duck-billed mammal

Tarara (×3)

There's nothing like the people here or here or here or here

My mates up here, my friends down there, there's nothing like this bear

There's nothing like these giant shrubs, this rock, this fish, these birds

There's nothing like this furry thing that bounces in herds

There's nothing like Australia (×2)

There's nothing like this wondrous land

From Darwin to Bass Strait

There's nothing like the people here

Where everyone is mate

There's nothing like Australia (×4)
